Power Seminar on Artificial Intelligence

A power seminar was organized for the students of VSIT, where Mr Anjani Kumar Sinha an entrepreneur and CEO of Xecutehub Technologies and Msswati Thomas., Assistant vice president in 72 Networks. Pvt. Ltd were the speakers. Mr Anjani Kumar Sinha started his session by putting some light on machine learning, creating logics and the processes that can be automated. He then discussed the history of artificial intelligence. In 1940 AI came into being, also shared that AI is beyond data science because it has thousands of algorithms and gives the answers better than humans He finally ended the session by a saying that “Being humble, machine learns and so could we”. Ms Swati Thomas who is currently working as the assistant vice president in 72 Networks. Pvt. Ltd commenced her session by telling the difference between hearing and listening. She then highlighted the importance of AI for future generations..Mr. Anjani Kumar Sinha. initiated as how to work for a startup, try to look for the idea, find out what you exactly want and picture it out. He then added several points for a successful business establishment, they are as follows every business starts with a dream, every dreamland has an unknown route, journey is all-knowing how to get your dreamland, taking small steps and getting ready for larger ones, touching failure is a reality in business, when you fail it is the time for unlearn to relearn.
