Webinar on INSIDE STORY OF RECRUITMENT CHALLENGES AND MEANS TO RESOLVE

Appearing for placement drives and getting a job in a renowned company is a very important stepping stone in every student's career. Generally, students can crack technical interviews but get stuck or rejected in HR interviews. The reason could be a lack of knowledge about the process. So, it is important to understand the whole process very thoroughly only through the perspective of the Talent Acquisition specialist.

So VSIT organized a webinar on "Inside Story of Recruitment Challenges and Means to Resolve" on 4th March 2022 on MS Teams, intending to give proper guidance to students regarding the issue addressed. The audience was addressed by the speaker **Ms. Garima Kumar** who is a dynamic individual with proven experience in Talent acquisition, organizational leadership, multi-unit operations, marketing, relationship management, and public relations at Primathon Technology. The session was attended by around 100 students and Faculty Members.

Ms. Kumar discussed different aspects of the professional world, like work ethics, community building, the headhunting process etc. which can help to crack not only interview but also help in personality development. Her every point discussed was supported by her own life experience which helped in developing new insights regarding the importance of human resources in a corporate world. She also presented the current market statistics and recommended some technologies which could dominate the IT industry in upcoming years, and the ways to prepare for it. At last, there was an interactive round of questions and answers through which students asked their respective queries.

Towards the end, **Ms. Kanta Malik**, the faculty coordinator of this event, showed her gratitude toward the speaker and student coordinators.

Altogether, the event got positive feedback from the students.

Meeting in "Zoom"

Work Ethics and Responsibilities towards peers

Work Ethics skills

- Reliability
- Dedication
- Discipline
- Productivity
- Cooperation
- Integrity
- Responsibility
- Accountability
- Professionalism
- Punctuality

ETHICS are beliefs regarding right and wrong behaviour. An individual's interpretation of ethical behaviour is strongly influenced by a combination of family influences, life experiences, education, religious beliefs, personal values, and peer influences.

If a person acts with integrity, that person is acting in ways that are consistent with his or her own code of principles.

Integrity is one of the cornerstones of ethical behaviour.
