Webinar on Web Development

DATE: 5th-Mar-2022

Web development is closely related to the job of designing the features and functionality of websites and apps (often called “web design”), but the “Web Development” term is usually reserved for the actual construction and programming of websites and apps. Think of all the websites one has used over the years – Web Developers built those sites making sure they functioned properly and performed in ways that allowed for a great user experience. Web Developers do this by writing lines of code, using a variety of programming languages, which vary depending on the tasks they are performing and the platform they are working on.

Vivekananda School of Information Technology organized a webinar on Web Development on 5th March 2022 on MS Teams under the supervision of faculty coordinator **Ms. Kanta Malik**. It was attended by around 90 students and Faculty Members. The objective was to make everyone aware of Web development so that the students could get an idea about how to deal with Web technological issues to bring out their best in this field as a career.

The session was addressed by the speaker **Mr. Bineet Pal Singh Bakshi**, who is an Employee Success Personnel in the IT Company Tech A2Z Info, as a freelancer where he focuses on the web development of IT professionals towards their career path. He is well known for his zeal and enthusiasm for subjects like Web development, which hold a very eminent place in the overall uplifting of an individual. In the conducted Seminar, Mr. Bakshi discussed various Questions on web development, what are the major root causes of stress, he further added various types of Web pages. However, on the solution side, he discussed various techniques one should follow like doing regular meditation, and differentiate between Dynamic webpage, static webpage.

An interactive session was held where students asked several questions. The positive views and reasoning of the speaker surely helped a lot of students in figuring out their numerous issues with web technologies. The event received encouraging feedback from the students.
