Webinar on CYBERLAW AND ITS LEGAL FRAMEWORK

With everything coming online in this new age of the internet, it comes with its challenges. Vivekananda Institute of Information Technology organized a Webinar on “Cyber Law and Its Legal Framework” on 12th March 2022.

The guest speaker was **Mr. Amresh Kumar** (Advocate in Delhi High Court). With his 15 years of experience being an advocate, he enlightened students on various topics such as Cyber Crime and Cyber Law. The entire session was beautifully structured and conceptualized with associated graphs and data to provide a better picture to the audience. Discussion started with digitization, its complexities in today's scenario in terms of data protection and privacy and legal acts for the same. He also explained the IT amendment act and its sections. Thereafter, students put different questions, which were answered nicely.

Towards the end of the seminar, the speaker was greeted well for giving his valuable time and an e-certificate was presented to him as a symbol of appreciation for the thorough knowledge and amazing insights he shared with us. Towards the end of the event, our faculty coordinator **Ms. Kanta Malik** showed gratitude to our guest speaker. The webinar was attended by around 70 students. Altogether, the event received encouraging feedback from the students.

CYBER SECURITY: DIGITALIZATION CREATES OPPORTUNITIES AND RISKS.

Digitalization creates... Opportunities
Billions of devices are being connected by the Internet of Things, and are the backbone of our infrastructure and economy

...and risks
Exposure to malicious cyber attacks is also growing dramatically putting our lives the stability of our society at risk
