Vivekananda School of Information Technology

Mr Vishal Pandey discussed Virtual reality, Augmented reality and Mixed reality followed by a detailed explanation of the difference between these three. He discussed in detail how the metaverse is growing day by day and its future scope. He also mentioned how the market is depending on these things and related them with the real environment and discussed the key advantages of XR along with the opportunities in the field of industry and research. He further told us how we can do modelling texturing, rigging and animation through 3-D modelling tools and also about game engine development by using physics, scripting, user interaction and gameplay. He made students aware that how by using this course they can build a strong portfolio which would also provide direct internships in renowned places like cogXR Labs, DRDO etc

Topics Covered

- Introduction to XR
- Introduction to Metaverse
- Project Demo
- Development Tools
- Course Content
- Queries
